MEMORANDUM FOR THE RECORD

OLC #78-357/24

SUBJECT: General Accounting Office Meeting

1. On 6 July 1978, [] OLC, and the STAT undersigned met with Messrs. Dan Stanton and John Tipton of the General Accounting Office (GAO) at their offices in GAO Headquarters. The purpose of the meeting was to permit Messrs. Stanton and Tipton to prepare for the GAO testimony which is now scheduled for 19 July 1978 in open session. Mr. Victor Lowe, who is the soon-to-be-reassigned Chief of the General Government Division, will read the initial GAO statement into the record which will reflect the information already contained in their report.

2. Mr. Stanton expects that the questioning will go to the GAO's production of the complete report rather than any substance. The schedule as it is understood by them after conversations with the Immigration, Citizenship and International Law Subcommittee is that the twentieth of July will be for rebuttal testimony for individuals who want to record their views on the alleged inadequacy of the GAO report, and the twenty-first of July is tentatively scheduled for executive session testimony by both the FBI and the CIA. Thus far, there has been no formal request for testimony received by OLC.

3. To assist Messrs. Stanton and Tipton in their review of the material, they were given an opportunity to rereview the summaries of the 111 alleged Nazi war criminals prepared, and their file of notes was hand-delivered and left with them for return subsequently. Before the meeting, Mr. Tipton had requested a memorandum dated 5 February 1962 which was forwarded to the FBI and the Immigration and Naturalization Service (Subject: [] STAT reviewed cursorily by Mr. Tipton who asks for an opportunity to review it further next week when he plans to visit CIA to permit us to review the GAO opening statement.
